Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

1. Original App: What Was Charged & Paid

Item	Amount	Amount incl. GST (18%)
Total app build (including payment integration)	₹540,000.00	₹637,200.00
Payment integration changes (2 rounds)	₹35,000.00	₹41,300.00
Misc. costs (delivery structure changes & other small fixes)	₹10,000.00	₹11,800.00
Major Flutter framework updates (2 rounds)	₹8,500.00	₹10,030.00
Login & Apple update work (required for App Store listing)	₹4,200.00	₹4,956.00
TOTAL ORIGINAL APP CHARGES	₹597,700.00	₹705,286.00

Payments Received	Amount
Received to date (per your records)	₹493,700.00

This is the same build cost and payment total we agreed on earlier, shown here again just for a complete record.

Payment & Cost Statement

Prepared July 23, 2026

2. App Rebuild & Redesign: What I Did

What I Did

- Rebuilt the entire app from scratch with a cleaner, more premium look and feel
- A brand new, simpler checkout process
- A redesigned home screen, navigation bar, and product pages
- A new logo and consistent branding across the whole app
- Fixed a pricing bug in the cart that was calculating totals incorrectly
- Nine months of ongoing polish and refinement, May 2025 to February 2026

2a. Reference: Code Changes

Commit	What it covers
0eb659d	Full app rewrite: new codebase & architecture (357 files), May 29, 2025
7e8d70d	Major UI updates to App v1
0682388	Redesign of App: new bottom nav, cart total bug fix, ~Jan 2026
3585a36	Few new designs
26366b4	Theme colour redesign
811a52c	Near-total UI overhaul, new 3-step checkout, new logo, ~Feb 2026

Full code history: github.com/DhruvilShah19/Falguni-Latest

2b. Rebuild Pricing & Discount Breakdown

Item	Amount
Standard cost for this scope of work	₹493,000
Discount: early rework that was on me	– ₹60,000
Discount: framework mistake in v1	– ₹40,000
Discount: poor UI experience in v1	– ₹40,000
Discount: taking longer than I originally promised	– ₹25,000
Subtotal, before tax	₹328,000
Tax (18% GST)	₹59,040
TOTAL REBUILD & REDESIGN CHARGE	₹387,040

Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

3. Additional App Updates: What I Did

A second batch of work, done after the rebuild above, from February to May 2026.

What I Did

- Added an order receipt feature so customers can view, copy, and share a receipt for any order
- Built a new order-review (audit) view inside the app
- Added a new order-success page and a "paused wallet" feature
- Fixed iOS privacy and Apple Sign-In compliance issues required for App Store approval
- Refreshed the onboarding flow with new illustrations
- Added a consistent "empty state" design used across the app
- Moved currency handling to a shared config for better performance
- Fixed a batch of smaller bugs across checkout, favourites, flash sales, login, and orders

3a. Reference: Code Changes

Commit	What it covers
a539995	Order receipt feature: view, copy & share, Feb 2026
ca78776	Receipt feature continued, plus platform housekeeping
cb75b15	Necessary fixes: bug fixes across ~30 pages (checkout, favourites, flash sales, login, orders, theming)
eba4fa9	New order-success page, paused wallet feature, iOS build fixes
bf18fa9	New order-review (audit) view inside the app
d855ee1	iOS privacy & Apple Sign-In compliance fixes
fdc8ece	New onboarding illustrations, consistent empty-state design, performance refactor

Full code history: github.com/DhruvilShah19/Falguni-Latest

3b. App Updates Pricing & Discount Breakdown

Item	Amount
Standard cost for this batch of work	₹140,000
Discount: bug fixes carried over from the earlier version	– ₹15,000
Subtotal, before tax	₹125,000
Tax (18% GST)	₹22,500
TOTAL APP UPDATES CHARGE	₹147,500

Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

4. New Website: Built From Scratch

There was no website for the business before this. The old Shopify store is gone, replaced end to end with a custom build on the same backend as the apps.

What I Did

- Built the entire website from scratch, the business's first ever
- Replaced the old Shopify store with a custom Next.js build
- Full feature parity with the app: catalog, cart, favourites, orders, and login
- Store locator with live Google Maps directions
- Live Google Reviews integration (4.8 stars, 1,400+ reviews)
- Heritage/About, FAQ, Contact, and newsletter signup
- Removed Porter, added Cashfree as the new payment gateway with a backend rework to support it
- Same Firebase backend as the apps, deployed on Vercel with the domain moved to GoDaddy

4a. Reference: The Build

Live site: falgunigruhudhyog.in

Full code history: github.com/DhruvilShah19/Falguni-Latest

Around 35 commits across the website, backend, and payment-gateway code, separate from the app work in Sections 2 and 3.

4b. Website Pricing Breakdown

Item	Amount
Website build (design, development & deployment)	₹350,000
Ongoing framework & design system work	₹50,000
Subtotal, before tax	₹400,000
Tax (18% GST)	₹72,000
TOTAL WEBSITE BUILD CHARGE	₹472,000

Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

5. Apps & Website Maintenance

Everything is stable now, both apps, the admin panel, and the new website. Free maintenance made sense while things were still being built and broken in; it doesn't make sense anymore. Starting this quarter, ongoing maintenance across all four platforms is billed at one flat monthly rate instead of being absorbed for free.

Item	Amount
Consolidated maintenance retainer (iOS + Android + Admin panel + Website), per month	₹15,000
March 2026	₹15,000
April 2026	₹15,000
May 2026	₹15,000
June 2026	₹15,000
Subtotal, before tax	₹60,000
Tax (18% GST)	₹10,800
TOTAL MAINTENANCE CHARGE (Mar - Jun 2026)	₹70,800

Consolidated multi-platform maintenance retainers (app + admin panel + website) typically run ₹12,000-₹25,000/month in the Indian market, based on the standard 15-20% of build cost annual benchmark for ongoing maintenance.

This covers March through June 2026. From July 2026 onward, it continues at the same monthly rate and gets logged going forward the same way as any other new charge.

6. My Mistakes, Your Win: The Real Numbers

A closer look at what the early mistakes cost me in real rupees given back, and everything beyond that you've never been billed for.

6a. Where I Fell Short and What I Gave Back

Mistake	What It Cost Me
Picked the wrong architecture for v1, had to rebuild the entire app from scratch	₹60,000
Got the technical framework wrong the first time around	₹40,000
Shipped a UI that wasn't good enough: cheap-looking, poorly structured	₹40,000
Ran months over the timeline I originally promised	₹25,000
Left bugs in the app (checkout, favourites, flash sales, login, orders) that needed fixing later	₹15,000
Left an un-debounced map handler live on the website, which spiked July's Google Cloud bill to \$1,359.73 instead of a normal ~\$85; I've covered the overage myself (see Section 8)	₹121,967
TOTAL I GAVE BACK	₹301,967

Most developers and agencies just redo broken work under warranty at no extra charge. No cash discount at all, and infrastructure overruns caused by their own bugs are rarely absorbed either. This ₹301,967 is on top of both.

6b. Free Since Day One: What You Never Paid For

Item	Estimated Value	What You Paid
Admin app (built and maintained as a fully separate app)	₹125,000	₹0
Ongoing UI-only tweaks and design refinements	₹90,000	₹0
Monthly maintenance and upkeep, free of charge (Feb 2024 - Feb 2026)	₹120,000	₹0
Server pipelines & API management for hosting, built from scratch	₹150,000	₹0
TOTAL VALUE GIVEN FREE	₹485,000	₹0

₹665,000 that's stayed in your pocket, because building this for you was never just business to me.

Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

7. For Your Reference: Typical Market Rates

Here's what this kind of work typically costs in India, broken down by who you'd hire for it (a solo freelancer, a full agency, or me), so the comparison is fair on both sides.

7a. What This Work Is Really Worth

Work	Individual Developer	Company / Agency	What I Charged (Me)
Full app build (Flutter e-commerce app)	₹5,00,000 - ₹12,00,000	₹12,00,000 - ₹25,00,000	₹540,000
Rebuild & redesign (comparable scope)	₹3,00,000 - ₹5,50,000	₹5,50,000 - ₹8,00,000	₹387,040
Custom website build (feature-rich, from scratch)	₹2,50,000 - ₹5,00,000	₹5,00,000 - ₹15,00,000	₹472,000

Based on published 2026 Indian development market data: dignizant.com, codingclave.com, digisoftsolution.com, heyneuron.com.

Next.js specifically: individual developers in India bill by seniority, roughly ₹800-₹1,500/hr for junior work, ₹1,500-₹3,000/hr mid-level, and ₹3,500-₹6,000/hr for senior/architect-level work. Auth, payment gateway integration, and maps (this scope) sit at the mid-to-senior tier, which is what the individual-developer range above reflects.

7b. Where That Leaves Us

What I charged across all three comes in at or below the lowest solo-freelancer estimate above, and that's before counting the ₹301,967 knocked off for my own mistakes (Section 6a) or the ₹485,000 of work you were never billed for at all (Section 6b).

Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

8. Original App: Hosting Costs, Month by Month

This is the one line item that keeps growing. Each row is the actual GCP invoice for that month, converted from USD to INR at the exchange rate on the day it was billed.

Month	Amount (USD)	Amount (INR)
December 2023	\$0.00	₹0
January 2024	\$0.00	₹0
February 2024	\$0.55	₹46
March 2024	\$1.22	₹102
April 2024	\$6.75	₹563
May 2024	\$11.95	₹997
June 2024	\$20.27	₹1,690
July 2024	\$21.96	₹1,838
August 2024	\$36.08	₹3,025
September 2024	\$22.10	₹1,852
October 2024	\$22.53	₹1,894
November 2024	\$18.36	₹1,553
December 2024	\$22.44	₹1,921
January 2025	\$22.35	₹1,935
February 2025	\$25.63	₹2,240
March 2025	\$23.14	₹1,977
April 2025	\$20.51	₹1,734
May 2025	\$26.41	₹2,260
June 2025	\$35.25	₹3,024
July 2025	\$35.26	₹3,090
August 2025	\$45.98	₹4,055
September 2025	\$34.60	₹3,072
October 2025	\$43.59	₹3,867
November 2025	\$38.14	₹3,413
December 2025	\$50.20	₹4,511
January 2026	\$46.33	₹4,260
February 2026	\$34.22	₹3,117
March 2026	\$21.05	₹1,975

Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

Month	Amount (USD)	Amount (INR)
April 2026	\$23.60	₹2,240
May 2026	\$27.08	₹2,573
June 2026	\$83.49	₹7,903
July 2026	\$97.00	₹9,369
TOTAL HOSTING COST (through July 2026)		₹82,094

Hosting is billed at actual GCP cost in USD, month to month, with no markup. INR amounts use the USD/INR reference rate on the billing date.

July's real GCP invoice was \$1,359.73 (₹131,336), driven by a Geocoding API bug on the website that I introduced and have since fixed. What's shown above for July is only \$97.00, roughly a normal month. I've covered the remaining ₹121,967 myself; it's logged as a loss in Section 6a, not passed through to this bill.

Falguni Gruh Udhyog

Payment & Cost Statement

Prepared July 23, 2026

9. Full Summary: Everything At A Glance

Line Item	Amount
Original app charges (incl. GST)	₹705,286.00
Hosting costs, through July 2026	₹82,094.00
App rebuild & redesign charge (incl. GST)	₹387,040.00
App updates charge (incl. GST)	₹147,500.00
Website build charge (incl. GST)	₹472,000.00
Maintenance charge, Mar – Jun 2026 (incl. GST)	₹70,800.00
TOTAL CHARGED TO DATE	₹1,864,720.00
Less: total received to date	– ₹493,700.00

BALANCE DUE NOW

₹1,371,020

Hosting is fully included through July 2026 (see Section 8 for the month-by-month breakdown); it will keep growing from here.
